

SMART DISPLAY SOLUTIONS FOR EVERY NEED.

Enjoy crisp visuals and easy setup with Epson projectors, designed for modern workspaces and classrooms.

Take control of your presentations with Epson’s reliable, high-performance business projectors. Whether you’re leading a boardroom meeting or teaching in a busy classroom, these projectors deliver crystal-clear visuals that make your content shine. Say goodbye to complicated setups – our wireless projection feature lets you connect directly from compatible smart devices with ease, no extra software needed. Flexible, user-friendly and built to impress, Epson projector is your smart choice for impactful presentations every time.

ENGINEERED FOR good

Sharper, Brighter Visuals Epson’s 3LCD technology delivers sharp visuals with up to 4,100 lumens ² , ensuring vibrant images even in bright environments.	Designed for Usability With their compact design and portability, these projectors offer multiple connectivity options, ensuring instant setup and seamless performance.	Durable Performance Enjoy reliable performance with various user-friendly options and an extended lamp life, ensuring consistent results over time.
--	--	---

For complete product features, refer to Table 1: Projector Features Overview.

Outstanding Image Quality

Epson's 3LCD technology delivers exceptional color brightness, ensuring vibrant, clear visuals even in well-lit conference rooms, classrooms, or retail spaces. With up to 4,100 lumens*, these projectors provide superior clarity and impact, making them the perfect choice for professional presentations in bright environments.

*For EB-FH54.

Higher Colour Light Output

Epson's 3LCD technology delivers bright images with vivid colours, offering balanced white and colour light output, along with superior colour brightness for more vibrant images than 1-chip projectors.

1-chip Technology

Scene Adaptive Gamma Except for EB-E24

Automatically adjusts the gamma level based on the content being displayed, optimising contrast and image quality for each scene. It analyses the image frame by frame, dynamically adjusting the gamma to ensure a more vivid and natural-looking picture, even in both dark and bright scenes.

Bigger Screens for Better Impact

Epson business projectors deliver larger images, with screen sizes up to 300 inches*, offering better visibility and brighter images that remain clearly visible even from the back of the room. This ensures a stress-free viewing experience for everyone.

* Maximum screen size varies depending on model.

The Importance of Higher Resolution

High-resolution projectors capture every detail from PCs and other devices, ensuring seamless communication. As screen size increases, so does the need for higher resolution to maintain clear, sharp images. For example, SVGA resolution often falls short in providing the clarity required for smooth communication.

Epson's latest business projector lineup offers models in XGA, WXGA, and 1080p resolutions. The 1080p model, in particular, delivers crisp, sharp text and more detailed images, making it ideal for professional presentations.

Higher Resolution = Clearer Images and Sharper Text

Higher Resolution = Display More Detail and Information

Split Screen Function for Corporate Except for EB-FH54

The split screen function allows two image sources to be projected on a single screen, eliminating the need for a second projector. This feature is ideal for video conferencing, enabling efficient multitasking during meetings.

Split Screen Function for Education Except for EB-FH54

In classrooms, the split screen function projects two images from separate devices, both wired and wirelessly. Connecting a projector to a document camera and a PC or tablet makes lessons more interactive and engaging.

Portability Meets Versatility

Easy To Carry

The Epson business projectors feature a compact design, making them easy to carry from one room to another, especially when compared to conventional flat panel displays (FPD).

Note: The projector carrying case is sold separately as an optional accessory.

Quick and Easy Positioning

Allows for easy adjustment and a wide range of projection positions using the foot lever.

Optical Zoom Except for EB-E12, E24

Optical zoom provides the flexibility to adjust the projector's installation location while still maintaining the desired picture size and quality.

Auto Vertical Keystone Except for EB-E12, E24

Saving setup time, Auto Vertical Keystone automatically detects and corrects image distortion when the foot lever is used to adjust the height of a projected image.

Auto Source Search

Automatically detects the input signal and projects the image without the need for a remote control or manual button operation.

Horizontal Keystone Slider Except for EB-E12

With the easy-to-use sliding Horizontal Keystone Slider, screen corrections can be done quickly, easily, and accurately, even in a limited space.

Plug-in and Present

Screen Mirroring with Miracast® Only for EB-FH54

Miracast support makes it easy to connect smart devices or laptops to the projector wirelessly– no additional accessories or app installations required. This quick and seamless connection enables smarter presentations and eliminates the hassle of messy cables.

Dual Connection

Easily connect to two devices simultaneously using Miracast. This feature improves flexibility and saves time during meetings or lessons.

- Seamlessly switch between two connected devices without disconnecting each time
- Supports split screen with two Miracast sources for enhanced productivity

Miracast® is a registered trademark of Wi-Fi Alliance®.

Enhanced Secure Connection

Keep your wireless connections secure and under control with added Miracast safety features.

- Prevents unintended or unauthorised Miracast connections
- "Access Control" lets the moderator approve connection requests
- Specific devices can be added to a blocklist to deny future connection attempts

Up to Four Screens at once with iProjection

Except for EB-E12, E24

Use the Epson iProjection* app to wirelessly share and control content from up to four connected devices simultaneously. The app also allows you to transfer still images and files from your smart device for smooth, wireless projection.

* Epson iProjection eliminates the need for annoying cabling by transferring still images and supported files from smart devices to projectors, for smooth wireless projection.

Seamless Streaming Made Easy with AirPlay 2

Only for EB-FH54

This projector features built-in Apple AirPlay 2, making it easy to stream videos, music, photos, and more directly from your iPhone, iPad, or Mac, with synchronized playback across other AirPlay-enabled devices.

Disclaimer: AirPlay 2 is a wireless media streaming protocol developed by Apple.

Smart Features For Smooth Operation

Lens Shutter Except for EB-E12

The lens shutter can be used to quickly stop and start projection without actually turning power off and on. This feature temporarily blocks an image projected onto a whiteboard, allowing the whiteboard to be used.

Home Screen

The home screen offers quick access to frequently used functions. Connected interfaces can be recognised at a glance and switched instantaneously. The information needed when setting up a wireless connection is projected on-screen, making connection fast and easy.

Auto Power On Supported interface varies per model

This feature can be used to automatically power up a projector when the projector is connected by cable to a device such as PC, saving setup time.

Direct Power Off

Simply unplug the power cable to turn off the projector after use and speed up clean-up after meetings and lessons.

Easy Lamp Replacement

When it's time to replace the lamp, simply purchase and install it yourself. No additional service required. This saves time and keeps maintenance hassle free.

Built-in Speaker

A powerful speaker delivers clear sound even in large rooms, eliminating the need to set up additional speakers.

Reliable and Low Maintenance

Easy Maintenance and Longer Lamp Life

A long lamp life reduces maintenance and costs. The lamp lasts up to 12,000 hours in ECO mode, equivalent to 10 years of use. This reduces the frequency of lamp replacements, saving you time and money while lowering the total cost of ownership.

WPA2 / WPA3-Enterprise For EB-FH54

WPA2/WPA3-Enterprise provides a safe method of wireless connectivity so that projectors can connect to a business environment over a secure wireless network.

SPECIFICATIONS

MODEL NUMBER		EB-E12
SKU Code		V11HB55052
Projection Technology		RGB liquid crystal shutter projection system (3LCD)
Specifications of Main Parts		
LCD	Size	0.55" (C2 Fine)
	Driving Method	Poly-silicon TFT active matrix
	Pixel Number	786,432 dots (1024 x 768) x 3
	Native Resolution	XGA
	Aspect Ratio	4:3
	Pixel Arrangement	Cross stripe
	Type	No Optical Zoom / Focus (Manual)
	F-Number	1.44
Projection Lens	Focal Length	16.7 mm
	Zoom Ratio	1.0 - 2.0 (Digital Zoom)
	Throw Ratio	1.44 – 2.88
	Lamp Type	210 W UHE
Lightsource	Life (Normal / Eco)	6,000 hours / 12,000 hours
Screen Size (Projected Distance)		
Zoom: Wide		30" – 350" [0.87 – 10.34 m]
Zoom: Tele		15" – 175" [0.87 - 10.34 m]
Standard Screen Size		60" [1.76 m]
Brightness ^{*1}		
White Light Output (Normal / Eco)		3,600 lm / 2,200 lm
Colour Light Output		3,600 lm
Light Output (Center) ^{*2}		3,700 lm
Contrast Ratio		15,000:1
Geometric Correction		
Vertical / Horizontal Keystone		±30° / ±30°
Connectivity		
Digital Input	HDMI Type A	2 (HDCP 1.4)
USB Input	USB Type B	1 (For Firmware Update, Copy OSD Settings)
Internal Speaker		Monaural 2W x 1
Operating Temperature		Low Altitude (0 - 2,286m/7,500ft): 5 - 40 °C <41 - 104 °F> High Altitude (Over 2,286m/7,500ft): 5 - 35 °C <41 - 95°F> 20% - 80% Humidity, No Condensation
Operating Altitude		Over 1,500m/4,921ft with High Altitude Mode: 0 - 3,048m (0 -10,000ft)
Direct Power On / Off		Yes
Start-Up Period		Less than 7 seconds (Epson Logo); Warm-up Period: 30 seconds
Cool Down Period		Instant Off
Air Filter	Type	Electrostatic Filter
	Maintenance Cycle ^{*3}	6,000 hours (Normal) / 12,000 hours (Eco)
Power Supply Voltage		100 - 240 V AC ±10%, 50/60 Hz
Power Consumption (220 - 240V)		
Lamp On	Normal	332 W
	Extended	231 W
Standby (Normal / Eco)		N/A / 0.3 W
Dimension Excluding Feet (W x D x H)		302 x 234 x 77 mm
Weight		Approx. 2.4kg
Fan Noise (Normal / Eco)		37dB / 28dB

^{*1} Colour brightness (colour light output) and white brightness (white light output) will vary depending on usage conditions. Colour light output measured in accordance with IDMS 15:4; white light output measured in accordance with ISO 21118.
^{*2} This light output value is measured at the centre of the screen as a reference value. There is no official standard for light output (Centre) measurements and this measurement is made based on the method set by Epson.
^{*3} When used in the general office environment (the amount of floating dust: 0.04 - 0.2 mg/m3). Based on the Epson's in-house test results.

Supplied Accessories
Power Cable: 1.8m, 3 wire
Remote Control: Yes, with Alkaline AA Battery
